

V. ADDENDUM

I. PHYSICIAN'S ASSESSMENT *(To be completed by the physician)*

NOTE TO PHYSICIAN: Pilgrim Place Retirement Community in Claremont is a licensed Continuing Care Retirement Community within the State of California. Since the community's inception in 1915, Pilgrim Place has relied on residents to be actively involved in volunteer efforts to develop, implement, and participate in residential programs and to be involved in the governance and organizational functions of the community. New residents, in particular, are encouraged to engage in this intentional care-giving community. Resident activities include, but are not limited to, serving on committees, helping with preparations for the annual fundraising Festival, assisting other residents, and participating in on-campus forums and special events.

1. In your opinion, does this prospective independent living resident have any physical condition that may limit his/her ability to participate fully in the life of this active residential community? Yes, No

If yes, please describe physical limitations that this prospective independent living resident might face in participating in the residential community.

2. In your opinion, does this prospective independent living resident have any mental or emotional condition that may limit his/her ability to participate fully in the life of this active residential community? Yes, No

If yes, please describe mental limitations that this prospective independent living resident might face in participating in the residential community.

3. Pilgrim Place is comprised of a 32-acre campus with residences and common facilities linked by streets and paths. Is this prospective resident able to transverse the campus independently, without the assistance of another resident, spouse, or partner? Yes, No

Would an assistive device be required? Yes, No

If yes, what type of assistive device?

Please note that persons with impairments may be eligible for entrance into the community.
