

Preparing for the Opening of Memory House

Designs for Memory House and drawings for the sustainable and edible wander garden are with the Claremont Planning Department. Once they are approved we will be moving full steam ahead to do the necessary renovations and upgrades. Our intention is to have our Memory House open before the end of this year.

There are a number of opportunities to help support the development of this much needed resource. Overleaf is a list of **“naming” opportunities**; donors may honor or remember a family member or friend. These gifts will allow us to build the program and hire and train staff who will provide round-the-clock care.

Also on the list are many donor **“adoption” opportunities**. These are the practical items we must purchase before we can open the house and welcome residents.

There will be a special reception in Memory House for anyone who “names or adopts” any of the items we need to fund. Donors will be able to tour the house and garden, meet the staff and learn first-hand how our new Memory House residence will operate.

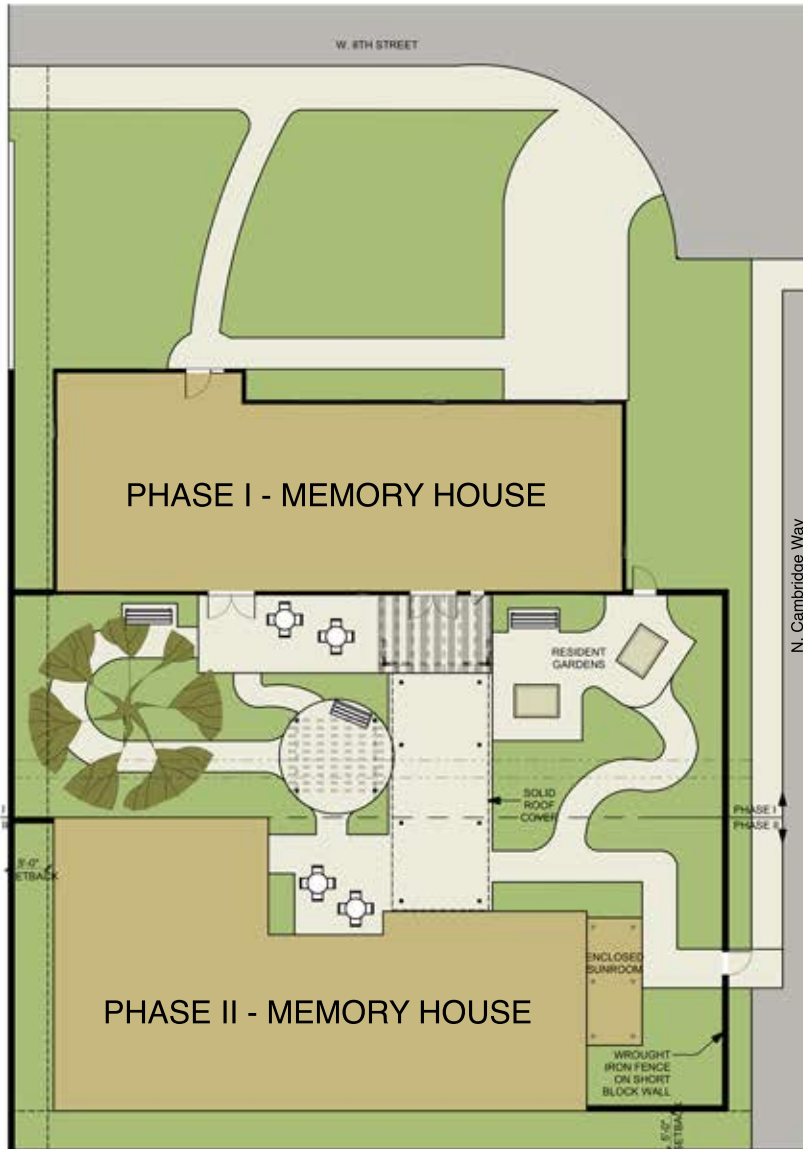

If you wish to learn more about Memory House and how you can help support it, please contact Joyce Yarborough at 909.399.5511.
