10/05/2021

Dear Residents and Family Members,

A staff member at the Health Services Center (HSC) has tested positive for the COVID-19 virus. The staff member did not have direct contact with any of our residents and is currently at home in quarantine.

Per our Department of Public Health nurse, we will be following the response testing, which requires 2 consecutive weeks of negative COVID-19 test results of all staff members and residents at HSC.

Residents will continue to be monitored on a daily basis during each shift for any related symptoms of COVID-19 (none of which have been noted). Additionally, we will continue to follow CDC guidelines and directives from our L.A. County Department of Public Health nurse to ensure we are doing all that is necessary to continue to be free of COVID-19 within HSC.

Indoor and outdoor visitations will remain the same. To be able to enter the facility please make sure to bring a face shield or goggles, surgical mask, and proof of vaccine. If you are not feeling well or have been exposed to the COVID-19 virus, we highly recommend you cancel and reschedule your visitation for the wellbeing of your loved one, our residents, and staff members.

If you have any questions please contact us at (909) 399-5550, email us at [vramirez@pilgrimplace.org](mailto:vramirez@pilgrimplace.org), or visit our website [www.pilgrimplace.org](http://www.pilgrimplace.org) for updates.

Stay safe and warm regards,

Pilgrim Place Health Services Center
