01/13/23

Dear Residents and Family Members,

We are informing you that an HSC staff member tested positive Thursday, (1/12/23) for the COVID-19 virus. The staff member is currently at home in quarantine.

We will continue to follow CDC guidelines as well as the directives from our assigned Los Angeles County Department of Public Health nurse, to ensure we are taking the appropriate steps, to limit the spread of COVID-19.

For visitations, indoor and outdoor visitations will resume. Below you will see new guidance from Los Angeles County of Public Health:

Effective Dec 7, 2022, until further notice (as previously noted in 11/30/22 email to all SNFs): All visitors* are expected to test for COVID-19 within 24 hours before an indoor visit and attest that their test result being negative. If testing is not done prior to arrival at the facility, SNFs should offer over the counter (OTC) antigen tests for visitors to self-test prior to entry and attest to the result to staff. Any visitor with a positive test result, regardless of symptoms, should reschedule their visit until after they have completed isolation. Positive results from self-performed tests without facility supervision do not have to be reported to Public Health.

If you have any questions please contact our Infection Preventionist – Jhunatess Yco Perez @ (909) 399-7095, email us at jperez@pilgrimplace.org or visit our website www.pilgrimplace.org for updates.

Stay safe and warm regards,

Pilgrim Place Health Services Center
