RE: COVID-19 UPDATE

Dear Residents and Family Members,

Yesterday, we were notified of one staff member at the Health Services Center (HSC) tested positive for COVID-19. The staff member did not provide direct care to our residents and is currently at home in isolation. As of this morning, one Resident tested positive. Per our protocol, this is your courtesy notification. Resident safety continues to be our top priority; we are being proactive and taking every best practice measure to ensure we stop even a potential spread COVID-19 among any other residents, staff or visitors.

We will continue to follow CDC guidelines as well as the directives from our assigned Los Angeles County Department of Public Health Nurse, to ensure we are taking the appropriate steps under current circumstances, to limit the spread of COVID-19 within HSC.

All residents are being monitored on a daily basis during each shift for any related symptoms of COVID-19 (none of which have been noted). If symptoms are identified, staff, residents, responsible parties and our Public Health Nurse will be immediately notified.

Warm regards,

Pilgrim Place Health Services Center
